

This is a pixel style game. Like the warm game, this one has the same principal and actors.

When the nose of digger touch gold and user presses space key, user will get score

When the digger touch the guard, user will lose score

1. The green one is gold digger, which user can control by keyboard
2. the yellow boxes are gold, they are fixed
3. The red stars are guards for competition and more fun, these actor will move automatically in random directions
4. All elements will place on the canvas at random position
